INDEPENDENT AUDITOR'S REPORT

To the County Judge and Commissioners' Court Lavaca County, Texas

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lavaca County, Texas, as of and for the year ended September 30, 2017, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lavaca County, Texas, as of September 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund, the Road and Bridge Funds, and the Debt Service Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the Employees Retirement System Information on pages 3-12, and 61-66 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Lavaca County, Texas' basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Management's Discussion and Analysis

As management of Lavaca County, Texas, we offer readers of Lavaca County, Texas' financial statements this narrative overview and analysis of the financial activities of Lavaca County, Texas for the fiscal year ended September 30, 2017.

Financial Highlights

- . The assets of Lavaca County, Texas exceeded its liabilities at the close of the most recent fiscal year by \$21,321,615 (net position). Of this amount, \$1,262,516 (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.
- . The government's total net position increased by \$87,480. This increase is immaterial.
- As of the close of the current fiscal year, Lavaca County, Texas' governmental funds reported combined ending fund balances of \$8,188,130, an increase of \$601,020 in comparison with the prior year. Approximately 22% of this total amount, \$1,806,160 is available for spending at the government's discretion (unassigned fund balance).
- At the end of the current fiscal year, the unassigned fund balance for the general fund was \$1,806,160, or 25 percent of total general fund expenditures, the fund balance for the road and bridge fund was \$4,021,732, or 84 percent of total road and bridge fund expenditures.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to Lavaca County, Texas' basic financial statements. Lavaca County, Texas' basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements: The government-wide financial statements are designed to provide readers with a broad overview of Lavaca County, Texas' finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of Lavaca County, Texas' assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of Lavaca County, Texas is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave). The government-wide financial statements distinguish functions of Lavaca County, Texas that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of Lavaca County, Texas include general administration, public safety, environmental protection, public transportation, health and welfare, public facilities, legal, elections, financial administration, conservation, capital projects, and culture and recreation. The business-type activities of Lavaca County, Texas include an ambulance fund, workmen's comp fund, and an unemployment insurance fund.

The government-wide financial statements include only Lavaca County, Texas itself (known as the primary government).

The government-wide financial statements can be found on pages 13-14 of this report.

Fund financial statements: A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Lavaca County, Texas, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds:

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Lavaca County, Texas maintains thirty nine (39) individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, the road and bridge fund, the debt service fund, and the capital improvement fund, all of which are considered to be major funds. Data from the other thirty-five (35) governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

Lavaca County, Texas adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund, road and bridge fund, the debt service fund, and the capital improvement fund.

The basic governmental fund financial statements can be found on pages 15-22 of this report. The basic proprietary fund financial statements can be found on pages 23-26 of this report.

Lavaca County, Texas also has two agency funds and one trust fund presented in this report. Such funds are not included in the county wide statement but are shown separately on pages 27-28 and page 77.

Notes to the financial statements:

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 29-60 of this report.

Other information:

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning Lavaca County, Texas' progress in funding its obligation to provide pension benefits to its employees and for major construction fund budgetary information. Required supplementary information can be found on pages 61-66 of this report.

The combining statements referred to earlier in connection with the general fund, the major road and bridge funds, and the nonmajor governmental funds are presented immediately following the required supplementary information on pensions. Combining and individual fund statements and schedules can be found on pages 67-76 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of Lavaca County, Texas, assets exceeded liabilities by \$21,321,615 at the close of the most recent fiscal year.

A large portion of Lavaca County, Texas' net position (64 percent) reflects its investment in capital assets (e.g., land, buildings, machinery, infrastructure, and equipment); less any related debt used to acquire those assets that are still outstanding. Lavaca County, Texas uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although Lavaca County, Texas' investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

LAVACA COUNTY, TEXAS NET POSITION

| | Governmental | | Busine | ss-Type | Total | | |
|--------------------------------------|--------------|--------------|-------------|----------------|--------------|--------------|--|
| | Activ | vities . | Activ | <i>i</i> ities | | | |

| Other Liabilities | 348,612 | 327,759 | 32,544 | 36,675 | 381,156 | 364,434 | |
| Total Liabilities | 7,025,076 | 7,283,338 | 786,733 | 679,020 | 7,811,809 | 7,962,358 | |
| Total Deferred Inflows of Resources | 229,199 | 356,829 | 28,183 | 43,877 | 257,382 | 400,706 | |
| Invested in Capital Assets, | | | | | | | |
| Net of Related Debt | 12,942,726 | 13,122,049 | 680,287 | 749,600 | 13,623,013 | 13,871,649 | |
| Restricted | 6,436,086 | 5,574,125 | | | 6,436,086 | 5,574,125 | |
| Unrestricted | (392,738) | 143,362 | 1,655,254 | 1,644,999 | 1,262,516 | 1,788,361 | |
| Total Net Position | \$18,986,074 | \$18,839,536 | \$2,335,541 | \$2,394,599 | \$21,321,615 | \$21,234,135 | |

An additional portion of Lavaca County, Texas' net position (30 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position (\$1,262,516) may be used to meet the government's ongoing obligations to citizens and creditors. At the end of the current fiscal year, Lavaca County, Texas reported a positive balance in the governmental activities. For the prior fiscal year, Lavaca County, Texas reported positive balances in net position, both for the government as a whole, as well as for its separate governmental activities. At the end of the prior fiscal year, Lavaca County, Texas reported positive balances in all three categories of net position for its governmental activities and business-type activities except for the governmental funds which reported a negative unrestricted net position of \$392,738.

The government's total net position increased by \$87,480. This increase is immaterial.

There was an increase of \$861,961 in restricted net position reported in connection with Lavaca County, Texas' government-type activities. This increase is the result of an increase in road and bridge reserve of \$519,627 for road construction.

Governmental activities:

Governmental activities increased Lavaca County, Texas' net position by \$146,538, thereby accounting for 100 percent of the total increase in the net position of Lavaca County, Texas. This increase is attributable to careful budget management.

Business-type activities:

Business-type activities decreased the County's net position by \$59,058.

- Demand for services for business-type activities decreased by \$120,190.
- Total expenses increased by \$17,487.
- . The business-type activities received no capital grants.

Financial Analysis of the Government's Funds

As noted earlier, Lavaca County, Texas uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds:

The focus of Lavaca County, Texas' governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing Lavaca County, Texas' financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, Lavaca County, Texas' governmental funds reported combined ending fund balances of \$8,188,130, an increase of \$601,020 in comparison with the prior year. Approximately 22 percent of this total amount (\$1,806,160) constitutes unassigned fund balance, which is available for spending at the government's discretion.

The general fund is the chief operating fund of Lavaca County, Texas. At the end of the current fiscal year, unassigned fund balance of the general fund was \$1,806,160, while total fund balance reached \$1,806,160. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 25 percent of total general fund expenditures, while total fund balance represents 25 percent of that same amount.

The fund balance of Lavaca County, Texas' general fund decreased by \$206,825 during the current fiscal year. Key factors in this decrease are as follows: This decrease is attributable to an increase in total expenditures of \$512,220, an increase in income of \$177,003, and careful budget management. The largest increase in expenditures was \$141,438 in the sheriff's office and the largest increase in income was \$241,271 in ad valorem taxes.

The road and bridge fund had a total fund balance of \$4,021,732. As a measure of the road and bridge fund's liquidity, it may be useful to compare total fund balance to total fund expenditures. Total fund balance represents 84 percent of that same amount. The fund balance of the road and bridge fund increased by \$519,627 during the current year. This increase is attributable to an increase in ad valorem taxes of \$633,898 and careful budget management.

The debt service fund was used to service debt only and the capital improvement fund is strictly for construction so therefore no analysis of these funds is necessary.

General Fund Budgetary Highlights

Differences between the original budget and the final amended budget for the general fund were an increase of \$22,961. The major increase was in the sheriff departments which increased by \$15,652.

Capital Asset and Debt Administration

Capital assets:

Lavaca County, Texas' investment in capital assets for its governmental activities and business-type activities as of September 30, 2017, amounts to \$15,032,564 (net of accumulated depreciation). This investment in capital assets includes land, buildings and system improvements, machinery and equipment, park facilities, and infrastructure items such as roads, highways, and bridges. The total decrease in Lavaca County, Texas' investment in capital assets for the current fiscal year was 3 percent (3 percent decrease for governmental activities and 5 percent increase for business-type activities). The County had no major construction during the year ended September 30, 2017.

Additional information on Lavaca County, Texas' capital assets can be found in note IV C on page 41 and 42 of this report.

Long-term debt:

At the end of the current fiscal year, Lavaca County, Texas had total bonded debt outstanding of \$1,145,000. Of this amount, \$1,145,000 comprises debt backed by the full faith and credit of Lavaca County, Texas.

| | Beginning Balance | Additions | Reductions | Ending Balance | Due Within One Year | Due After One Year |
|--------------------------|----------------------|-----------|------------|-------------------|------------------------|-----------------------|
| Governmental Activities: | | | | | | |
| General Obligation Bonds | \$1,145,000 | \$0 | \$215,000 | \$1,145,000 | \$220,000 | \$925,000 |
| | 1,145,000 | 0 | 215,000 | 1,145,000 | 220,000 | 925,000 |
| | | | | | | |
| Grand Total | \$1,145,000 | \$0 | \$215,000 | \$1,145,000 | \$220,000 | \$925,000 |
| · · | | | • | | | |

Lavaca County, Texas' bonded short-term and long-term debt decreased by \$215,000 (16 percent) during the current fiscal year. The key factor in this decrease was the payment of debt principal on the jail facility bonds of \$215,000. Additional information on Lavaca County, Texas' Long-term debt can be found in note IV F on pages 44 and 45 of this report.

Future Outlook

The County expects its finances to remain approximately the same as in the past. Inflation will play a factor but will affect both revenues and expenditures equally. There are no major events planned in the future.

CONTACTING THE COUNTY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the County's finances and to show the County's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the County's business office, at Lavaca County, Texas, 109 N. La Grange Street, Hallettsville, Texas 77964.

LAVACA COUNTY, TEXAS RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION SEPTEMBER 30, 2017

| Total Fund Balances - governmental funds balance sheet | \$8,188,130 |
|---|--------------|
| Amounts reported for governmental activities in the statement of net position ("SNA") are different because: | |
| Capital assets used in governmental activities are not reported in the funds. Internal service funds are used by management to account for funds for self- insurance. The assets and liabilities of internal service funds are included in | 14,242,652 |
| governmental activities in the statement of net position. | 42,917 |
| Private purpose trust fund | 54,116 |
| Other long-term assets are not available to pay for current period | |
| expenditures and, therefore, are deferred in the funds. | 2,818,838 |
| Property taxes receivable unavailable to pay for current period | |
| expenditures are deferred in the funds (net of allowance for uncollectibles). | 320,135 |
| Long-term liabilities, including compensated absences, are not due and payable in the | |
| current period and therefore are not reported in the funds. | (6,680,714) |
| Net Position of Governmental Activities - statement of net position | \$18,986,074 |

LAVACA COUNTY, TEXAS
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCES OF
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
YEAR ENDED SEPTEMBER 30, 2017

| Net Changes in Fund Balances - total governmental funds | \$601,020 |
|---|-----------|
| Amounts reported for governmental activities in the statement of net position ("SNA") are different because: | |
| Governmental funds report capital outlays as expenditures. However, in the statement | |
| of activities the cost of those assets is allocated over their estimated useful lives | |
| and reported as depreciation expense. This is the amount by which capital outlays | |
| exceeded depreciation in the current period. | (495,315) |
| Other long-term assets are not available to pay for current period | |
| expenditures and, therefore, are deferred in the funds. This is the change in these amounts this year. | (23,499) |
| Deferred Outflow of Resources-contribution. This is the change in these amounts this year. | 36,329 |
| Deferred Outflow-net difference between projected and actual earnings. This is the change in these amounts this year. | (372,998) |
| Deferred Outflow-changes of assumptions. This is the change in these amounts this year. | (90,160) |
| Deferred Inflow-actual experience vs. assumption. This is the change in these amounts this year. | 127,630 |
| (Increase) decrease in compensated absences from beginning of period to end of period. | (21,534) |
| (Increase) decrease in accrued interest payable from beginning of period to end of period. | 0 |
| Certain property tax revenues are deferred in the funds. This is the change in these amounts this year. | 39,786 |
| Private purpose trust fund net revenues. | 54,116 |
| Internal service funds are used by management to account for funds for self-insurance. | |
| The net revenue of certain activities of Internal service funds is reported with | |
| governmental activities. | (9,486) |
| (Increase) decrease in capital lease payable from beginning of period to end of period. | 0 |
| (Increase) decrease in net pension liability from beginning of period to end of period. | (15,343) |
| Repayment of loan principal is an expenditure in the funds but not an expense in the SOA. | 315,992 |
| Change in Net Position of Governmental Activities - statement of activities | \$146,538 |
| | |

LAVACA COUNTY, TEXAS NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2017

I. Summary of Significant Accounting Policies

A. Reporting entity

Lavaca County operates under a County Judge – Commissioners' Court type of government and provides the following services throughout the County: public safety (fire, ambulance, and law enforcement), public transportation (highways and roads), health and welfare, culture and recreation, conservation (agriculture), public facilities, judicial and legal, election functions, and general and financial administrative services. The accounting policies of Lavaca County, Texas, (the County) conform to generally accepted accounting principles. The County also applies all relevant Government Accounting Standards Board (GASB) pronouncements. The following is a summary of the more significant policies.

The accounts of the County are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues, and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

B. Government-Wide and Fund Financial Statements

The County's Government-Wide Financial Statements include a Statement of Net Position and a Statement of Activities. These statements present summaries of Governmental Activities for the County accompanied by a total column.

These statements are presented on an "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all of the County's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, including capital assets and long-term liabilities, are included in the accompanying Statement of Net Position. The Statement of Activities presents changes in net position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred, regardless of the timing of related cash flows. The types of transactions reported as program revenues for the County are reported in three categories: 1) charges for services, 2) operating grants and contributions, and 3) capital grants and contributions.

Certain eliminations have been made to interfund activities, payables, and receivables. All internal balances in the Statement of Net Position have been eliminated except those representing balances between the governmental activities, which are presented as internal balances and eliminated in the total primary government column. When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as they are needed.

Governmental fund financial statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances for all major governmental funds and nonmajor funds aggregated. An accompanying schedule is presented to reconcile and explain the differences in fund balances and changes in fund balances as presented in these statements to the net position and changes in net position presented in the Government-Wide financial statements. The County has presented all major funds that met those qualifications.

All governmental funds are accounted for on a spending or "current financial resources" measurement focus and the modified accrual basis of accounting. Accordingly, only current assets and current liabilities are included on the Balance Sheets. The Statement of Revenues, Expenditures and Changes in Fund Balances present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Accordingly, revenues are recorded when received in cash, except that revenues subject to accrual (generally 60 days after year-end) are recognized when due. The primary revenue sources, which have been treated as susceptible to accrual by the County, are property tax, intergovernmental revenues and charges for services. Expenditures are recorded in the accounting period in which the related fund liability is incurred.

The government reports the following major governmental funds:

The general fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The road and bridge fund accounts for the activities of the government's road and bridge operations.

The debt service fund accounts for ad valorem monies used to service the bonded debt.

The capital improvement fund accounts for monies used for construction.

Proprietary fund financial statements include a Statement of Net Position, a Statement of Revenues, Expenses and Changes in Fund Net Position, and a Statement of Cash Flows for each major proprietary fund.

Proprietary funds are accounted for using the "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all assets, deferred outflows of resources, liabilities (whether current or noncurrent), and deferred inflows of resources are included on the Statement of Net Position. The Statement of Revenues, Expenses and Changes in Fund Net Position present increases (revenues) and decreases (expenses) in total Net Position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred, regardless of the timing of related cash flows.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Ambulance fund is ambulance run fees. The principal operating revenues of the Internal Service Fund are charges to the various funds for workmen's compensation premiums and unemployment tax charges. Operating expenses for enterprise funds include workmen's compensation premiums, unemployment taxes, and ambulance expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as they are needed.

The government reports the following major proprietary funds:

The ambulance fund is used for emergency medical transportation. The workmen's compensation fund and the unemployment insurance are used to facilitate the process of providing workmen's compensation insurance and discharging the unemployment obligation.

C. Fiduciary Funds

Fiduciary Funds account for assets held by the County in a trustee capacity or as an agent on behalf of others. As such, fiduciary funds are not reported in the government-wide statements. The County's fiduciary funds include the following: The County Officer Accounts and Clerk Draw fund are both used to account for the fines and fees collected and remitted by the County Officers in the course of their operations. The Historical Commission fund is used as to administer monies for Lavaca County's history.

D. Assets, Liabilities, and Net Assets or Equity

1. Deposits and Investments

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. State statutes authorize the Government and the District to invest in obligations of the U.S. Treasury. Investments for the Government are reported at fair value. For purposes of the statement of cash flows, the County considers all highly liquid investments (including restricted assets) with a maturity when purchased of three months or less and all local government investment pools to be cash equivalents.

2. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources. All property tax receivables are shown net of an allowance for uncollectibles. The property tax receivable allowance is equal to a total of 40 percent of the current and delinquent outstanding property taxes at September 30, 2017. Property is appraised and a lien on such property becomes enforceable as of January 1, subject to certain procedures for rendition, appraisal, appraisal review and judicial review. Traditionally, property taxes are levied October 1, of the year in which assessed or as soon thereafter as practicable. Taxes are due and payable when levied since that is when the County bills the taxpayers. The County begins to collect the taxes as soon as the taxpayers are billed.

3. Inventories and Prepaid Items

Inventories of materials and supplies held by the General Fund are considered immaterial and thus are not accounted for in the Balance Sheet. In the General Fund, disbursements for supplies and materials are considered to be expenditures at the time of purchase. There were no inventory items at September 30, 2017. Certain payments to vendors reflect costs applicable to future accounting periods. There were no prepaid items at September 30, 2017. There were no costs recorded as prepaid items at September 30, 2017.

4. Restricted Assets - There were no restricted assets at September 30, 2017.

5. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost as follows and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Infrastructure items such as roads, highways, and bridges are not included. Property and Equipment with a dollar value greater or equal to \$500 but less than \$1,000 are considered inventoried assets. These assets are inventoried for security purposes in the Fixed Asset System but not capitalized for depreciation purposes.

| Buildings/Building improvements | \$5,000 |
|--|----------|
| Improvements Other Than Buildings | \$5,000 |
| Infrastructure | \$50,000 |
| Machinery, Equipment, and Other Assets | \$1,000 |
| Leasehold Improvements | \$5,000 |

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. The County had major road reconstruction during the year ended September 30, 2017.

Property, plant, and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

| Assets | Years |
|-----------------------|-------|
| Buildings | 30-40 |
| Building Improvements | 20-40 |
| System Infrastructure | 15-45 |
| Vehicles | 5-10 |
| Office Equipment | 5-10 |
| Computer Equipment | 5 |

6. Compensated Absences

It is the government's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the government does not have a policy to pay any amounts when employees separate from service with the government. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in government-wide financial statements.

7. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

8. Fund Balances – Governmental Funds

As of September 30, 2017, fund balances of the governmental funds are classified as follows:

Nonspendable – amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted — amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Unassigned — all other spendable amounts.

As of September 30, 2017, fund balances are composed of the following:

| Fund Balances: | |
|------------------------|-------------|
| Restricted | |
| Construction | \$842,533 |
| Debt Service | 83,057 |
| General Administration | 317,502 |
| Health | 13,558 |
| Judicial | 212,899 |
| Legal | 64,853 |
| Public Safety | 825,836 |
| Public Transportation | 4,021,732 |
| Unassigned | 1,806,160 |
| Total Fund Balance | \$8,188,130 |

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the County considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the County considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless Commissioners' Court or the finance committee has provided otherwise in its commitment or assignment actions.

In fiscal year 2011, the Commissioners' Court adopted a minimum fund balance policy for the General Fund. The policy requires the unassigned fund balance at fiscal year end to be at least equal to 18 to 25 percent of the subsequent year's budgeted General Fund expenditures.

9. Comparative data/reclassifications

Comparative total data for the prior year have been presented only for individual enterprise funds in the fund financial statements in order to provide an understanding of the changes in the financial position and operations of these funds. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

10. Deferred outflows/inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/ expenditure) until then. The government only has one item that qualifies for reporting in this category. It is deferred under GASB 68.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The government only has one item that qualifies for reporting in this category. It is deferred under GASB 68.

The County reports unearned revenue on its fund financial statements. Unearned revenues arise when potential revenue does not meet both the "measureable" and "available" criteria for recognition in the current period (fund financial statements). Unearned revenues also arise when resources are unearned by the County and received before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures (fund financial statements and government-wide financial statements). In subsequent periods, when both revenue recognition criteria are met, or when the County has a legal claim to the resources, the liability for unearned revenue is removed from the applicable financial statement and revenue is recognized. Pursuant to GASB 65 we have included deferred ad valorem taxes as deferred inflows in the fund financial statements.

11. Net position flow assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

II. Reconciliation of Government-Wide and Fund Financial Statements

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets.

The governmental fund balance sheet includes reconciliation between fund balance - total governmental funds and net assets - governmental activities as reported in the government-wide statement of net assets. One element of that reconciliation explains that "long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds." The details of this \$6,680,714 difference are as follows:

| Bonds Payable | 1,145,000 |
|--------------------------|-------------|
| Capital Lease | 154,926 |
| Accrued Interest Payable | 4,250 |
| Compensated Absences | 308,791 |
| Net Pension Liability | 5,067,747 |
| | \$6,680,714 |

The governmental fund statement of revenues, expenditures, and changes in fund balances includes reconciliation between net changes in fund balances - total governmental funds and changes in net assets of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds" report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. The details of this \$14,242,652 difference are as follows:

Capital assets not being depreciated
Capital assets being depreciated
Depreciation expense

\$487,447
25,455,122
(11,699,917)

Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in Net Position of governmental activities

\$14,242,652

The governmental fund balance sheet includes reconciliation between fund balance - total governmental funds and net assets - governmental activities as reported in the government-wide statement of net assets. One element of that reconciliation explains that "Property taxes receivable unavailable to pay for current period expenditures are deferred in the funds (net of allowance for uncollectible.") The details of this \$320,135 difference are as follows:

| Property Taxes Receivable | \$533,558 |
|---------------------------------|-----------|
| Allowance for Doubtful Accounts | (213,423) |
| Net | \$320,135 |

The governmental fund balance sheet includes reconciliation between fund balance - total governmental funds and net assets - governmental activities as reported in the government-wide statement of net assets. One element of that reconciliation explains that "Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds." The details of this \$2,818,838 difference are as follows:

| Fines Receivable | \$1,008,394 |
|---|-------------|
| Allowance for Doubtful Accounts | (504,197) |
| Deferred Outflow of Resources-Contributions (after 12/31/16) | 721,464 |
| Deferred Outflow-Net difference between projected and actual earnings | 1,642,056 |
| Deferred Outflow-Changes of assumptions | 180,320 |
| Deferred Intflow-Actual Experience vs. Assumption | (229,199) |
| Net | \$2,818,838 |

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities.

The governmental fund statement of revenues, expenditures, and changes in fund balances includes reconciliation between net changes in fund balances - total governmental funds and changes in net assets of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this (\$495,315) difference are as follows:

| Capital Outlay - Additions - Not Being Depreciated | \$0 |
|--|-------------|
| Capital Outlay - Additions - Being Depreciated (Net) | 354,498 |
| Capital Outlay - Deletions | 0 |
| Depreciation Expense | (849,813) |
| · | |
| Net Adjustment to Increase Net Changes | |
| in Fund Balances - Total Governmental Funds to | |
| Arrive at Changes in Net Position of | |
| Governmental Activities | (\$495,315) |

III. Stewardship, Compliance, and Accountability

A. Budgetary Information

The original budget is adopted by the Commissioners' Court and filed with the County Clerk. Amendments are made during the year on approval by the Commissioners' Court.

The final amended budget is used in this report.

The budget should not be exceeded in any expenditure category under State law. Unused appropriations lapse at the end of each year. The County Judge is, by statute, the Budget Officer of the County. He usually requests and relies on the assistance of the County Auditor to prepare the annual budget. After being furnished budget guidelines by the Commissioners' Court, the County Auditor prepares an estimate of revenues and a compilation of requested departmental expenditures and submits this data to the Commissioners' Court. The Commissioners' Court invites various department heads to appear for a hearing concerning the departments' budget requests. Before determining the final budget, the Commissioners' Court may increase or decrease the amounts requested by the various departments. Amounts finally budgeted may not exceed the County Auditor's estimate of revenues and available cash. The final budget can be legally amended by the Commissioners' Court to whatever extent the Court desires as long as the amended figures do not exceed the County Auditor's estimate of revenues and available cash. When the Budget has been adopted by the Commissioners' Court, the County Auditor is responsible for monitoring the expenditures of the various departments of the County to prevent expenditures from exceeding budgeted appropriations and for keeping the members of the Commissioners' Court advised of the condition of the various funds and accounts. The level of control for each legally adopted annual operating budget is the line item. Budgets for the 2017 fiscal year were adopted for the General Fund, the Road and Bridge Funds, the Debt Service fund, and the Capital Improvement fund.

B. Excess of Expenditures over Appropriations

For the year ended September 30, 2017, expenditures did not exceed appropriations in any funds.

C. Deficit fund equity

The county had no deficit fund balances at September 30, 2017.

IV. Detailed Notes on All Funds

A. Deposits and Investments

Legal and Contractual Provisions Governing Deposits and Investments:

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the County to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit. Statutes authorize the County to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas; (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) Mutual Funds, (8) Investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the County to have independent auditors perform test procedures related to investment practices as provided by the Act. The County is in compliance with the requirements of the Act and with local policies.

Policies Governing Deposits and Investments:

The County has adopted a deposit and investment policy and the county addresses the following risks:

Custodial credit risk - deposits. In the case of deposits, this is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The government has a deposit policy for custodial credit risk. As of September 30, 2017, the government's bank balance of \$11,211,684 was not exposed to custodial credit risk because it was fully insured by the U.S. Government and/or the State of Texas and/or is collateralized with securities held by the pledging financial institution's trust department or agent, in the government's name. The fair market value of the securities pledged is \$19,568,125 and the FDIC coverage is \$250,000.

The County had no investments at September 30, 2017.

B. Receivables

Receivables as of September 30, 2017 for the government's individual major funds and nonmajor and fiduciary funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

| | | Road | | |
|-----------------------|-----------|-----------|-----------|-------------|
| | | and | | |
| | General | Bridge | Ambulance | Total |
| Receivables | | | | |
| Taxes | \$409,965 | \$123,593 | | \$533,558 |
| Accounts | | | 2,806,107 | 2,806,107 |
| Fines | 1,008,394 | | | 1,008,394 |
| Gross Receivables | 1,418,359 | 123,593 | 2,806,107 | 4,348,059 |
| Less: Allowance for | | | | |
| Uncollectibles | 668,183 | 49,437 | 1,876,693 | 2,594,313 |
| | | | | |
| Net Total Receivables | \$750,176 | \$74,156 | \$929,414 | \$1,753,746 |

C. Capital Assets

Capital asset activity for the year ended September 30, 2017 was as follows:

| Governmental Activities: | Beginning | | | Ending |
|---|-------------------------|--------------------|-----------|----------------------|
| Capital assets not being depreciated: | Balances | Increases | Decreases | Balances |
| Land | \$487,447 | \$0 | | \$487,447 |

Construction commitments

The County had major road reconstruction during the year ended September 30, 2017.

Capital asset depreciation for the year ended September 30, 2017 was as follows:

| Governmental Activities | |
|---|-----------|
| General Administration | \$206,045 |
| Legal | 2,381 |
| Financial Administration | 13,335 |
| Public Facilities | 82,590 |
| Public Safety | 186,631 |
| Public Transportation | 344,882 |
| Health and Welfare | 12,868 |
| Conservation - Agriculture | 1,081 |
| Total Depreciation Expense - Governmental Activities | \$849,813 |
| | |
| Business-Type Activities | |
| Ambulance | \$96,719 |
| Total Depreciation Expense - Business-Type Activities | \$96,719 |

D. Interfund Receivables, Payables, and Transfers

Due to/from other funds:

There were no due to/from other funds at September 30, 2017.

There were no advances at September 30, 2017.

The following are transfers for the year ended September 30, 2017.

| INTRAFUND | | | | |
|----------------------|-----------|-----------|--------------|-----------|
| | ROAD | CAPITAL | | |
| | AND | IMPROVE- | NON-MAJOR | |
| | BRIDGE | MENT | GOVERNMENTAL | |
| TRANSFER OUT | FUND | FUND | FUNDS | TOTAL |
| GENERAL FUND | \$90,000 | \$125,000 | | \$215,000 |
| ROAD AND BRIDGE FUND | 24,985 | | 3,000 | 27,985 |
| TOTALS | \$114,985 | \$125,000 | \$3,000 | \$242,985 |

The transfer from the general to the road and bridge fund is for road and bridge operations. The transfer from the road and bridge funds to the road and bridge funds is for road and bridge operations.

The above transfers are non recurring transfers.

E. Leases

Operating Leases:

The government leases equipment under non-cancelable operating leases. Total costs for such leases were \$6,966 for the year ended September 30, 2017. Rent expenditures were \$0 for the year ended September 30, 2017. Sublease rental income was \$0 for the year ended September 30, 2017. The future minimum lease payments for these leases are as follows:

| Year Ending Sept. 30, | <u>Amount</u> |
|-----------------------|-----------------|
| 2018 | \$ 6,524 |
| 2019 | 2,106 |
| 2020 | 1,644 |
| 2021 | 411 |
| Total | <u>\$10,685</u> |

F. Long-Term Debt

Certificates of Obligation

The government issued Refunding Certificates of Obligation, Series 2012 in the Amount of \$1,965,000. The Certificates of Obligation are serviced by the debt service fund.

| | | ORIGINAL | CURRENT | | MATURITY | | |
|-------------------------|-----------|-------------|-------------|--------|----------|--------------|----------------|
| PURPOSE | RATE | AMOUNTS | AMOUNTS | SERIES | DATE | COVENANTS | SECURITY |
| Governmental activities | .75-2.50% | \$1,965,000 | \$1,145,000 | 2012 | 2022 | Sinking Fund | Ad Valorem Tax |
| Total | | \$1,965,000 | \$1,145,000 | | | | |

Annual debt service requirements to maturity for the Certificates of Obligation are as follows:

| Year Ending | Governmental Activities | | | |
|---------------|-------------------------|----------|--|--|
| September 30, | Principal | Interest | | |
| 2018 | \$220,000 | \$25,502 | | |
| 2019 | 225,000 | 21,433 | | |
| 2020 | 225,000 | 16,820 | | |
| 2021 | 235,000 | 11,757 | | |
| 2022 | 240,000 | 6,000 | | |
| TOTALS | \$1,145,000 | \$81,512 | | |

Capital Leases

The Capital Leases consists of the following: The County entered into a capital lease to purchase County Clerk equipment, Ambulance Equipment, and equipment for Road and Bridge Precincts No. 1, 2, and 4. The total amount of debt is \$264,552. The security pledged for the capital leases is the equipment financed. The debt will be serviced by both the general fund, the Ambulance fund, and the road and bridge funds.

The following for the above debt is a schedule of the future minimum lease payments and the present value of net minimum lease payments at September 30, 2017.

The accumulated depreciation of the above equipment is as follows:

| | Governmental | | | Business-Type | | |
|--------------|------------------|-----------|---------------|---------------|-------------|-----------|
| | | Activ | ities | | Activities | _ |
| | | PCT. 1 | <u>PCT. 2</u> | PCT. 4 | AMBULANCE | |
| | COUNTY | 2017 INT. | JD | JD | <u>FUND</u> | |
| | <u>CLERK</u> | DUMP | BACKHOE | BACKHOE | AMBULANCE | Total |
| ASSET | EQUIPMENT | TRUCK | LOADER | LOADER | LIFEPACKS | Amount |
| COST | \$93,085 | \$102,249 | \$136,709 | \$100,732 | \$137,031 | \$569,806 |
| ACCUMULATED | | | | | | |
| DEPRECIATION | 55,851 | 40,900 | 82,025 | 60,439 | 16,746 | 255,961 |
| NET ASSET | \$37,234 | \$61,349 | \$54,684 | \$40,293 | \$120,285 | \$313,845 |
| | | | | | | |

The future minimum lease obligations and the net present value of these minimum lease payments as of September 30, 2017, were as follows:

| | | | | | Business-Type | |
|---|------------------|------------|---------------|----------|---------------|-----------|
| | | Government | al Activities | | Activities | |
| | | PCT. 1 | PCT. 2 | PCT. 4 | AMBULANCE | |

| YEAR | EQUIPMENT | TRUCK | LOADER | LOADER | LIFEPACKS | Amount |
| 2018 | \$21,346 | \$36,639 | \$30,062 | \$21,741 | \$27,406 | \$137,194 |
| 2019 | | 36,640 | 30,062 | | 27,406 | 94,108 |
| 2020 | | | | | 27,406 | 27,406 |
| 2021 | | | | | 27,407 | 27,407 |
| Total Minimum Lease Payments | 21,346 | 73,279 | 60,124 | 21,741 | 109,625 | 286,115 |
| Less: Amount Representing Interest | 622 | 3,918 | 16,575 | 449 | 0 | 21,564 |
| Present Value of Net Minimum Lease Payments | \$20,724 | \$69,361 | \$43,549 | \$21,292 | \$109,625 | \$264,551 |

Changes in long-term liabilities:

| | Beginning Balance | Additions | Reductions | Ending Balance | Due Within One Year | Due After One Year |
|--------------------------------|----------------------|-----------|------------|-------------------|------------------------|-----------------------|
| Governmental Activities: | | | | | | · |
| General Obligation Bonds | \$1,360,000 | \$0 | \$215,000 | \$1,145,000 | \$220,000 | \$925,000 |
| Total Bonds Payable | 1,360,000 | 0 | 215,000 | 1,145,000 | 220,000 | 925,000 |
| | | | | | | |
| Capital Leases | 255,918 | | 100,992 | 154,926 | 104,838 | 50,088 |
| Net Pension Liability | 5,052,404 | 15,343 | | 5,067,747 | | 5,067,747 |
| Compensated Absences | 287,257 | 308,791 | 287,257 | 308,791 | 308,791 | 0 |
| Total Governmental Activities | 6,955,579 | 324,134 | 603,249 | 6,676,464 | 633,629 | 6,042,835 |
| | | | | | | |
| Business-Type Activities: | | | | | | |
| Net Pension Liability | 621,267 | 1,887 | | 623,154 | | 623,154 |
| Capital Leases | | 137,031 | 27,406 | 109,625 | 27,406 | 82,219 |
| Compensated Absences | 21,078 | 21,410 | 21,078 | 21,410 | 21,410 | 0 |
| Total Business-Type Activities | 642,345 | 160,328 | 48,484 | 754,189 | 48,816 | 705,373 |
| | | | | | | |
| Grand Total | \$7,597,924 | \$484,462 | \$651,733 | \$7,430,653 | \$682,445 | \$6,748,208 |

The general fund, the road and bridge fund, and the ambulance funds are used to service the compensated absences. The estimated amount due in the 2017-18 year is \$330,201.

The government-wide statement of activities includes \$682,445 as "noncurrent liabilities, due within one year".

The general fund, the road and bridge fund, and the ambulance funds are used to service the net pension liability. The net pension liability is discussed in note E below.

V. Other Information

A. Risk management

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Claim liabilities are estimated considering the effects of inflation, recent claim settlement trends (including frequency and amounts of payouts) and other economic and social factors (including the effects of specific, incremental claim adjustment expense, salvage and subrogation).

Changes in accrued liabilities for these claims follow:

| | Year ended <u>09/30/16</u> | Year ended <u>09/30/17</u> |
|---|----------------------------|----------------------------|
| Unpaid claims, beginning of fiscal year Incurred claims | \$ -0- | \$ -0- |
| (including IBNRs) Claim payments | 0- | 0- |
| Unpaid claims, end of fiscal year | <u>\$ -0-</u> | <u>\$ -0-</u> |

1. General Liability Insurance

The County is insured for general, police officers and automobile liability.

The County has joined together with other governments in the Texas Association of Counties Risk Management Pool. The County pays an annual premium to Risk Management for auto vehicle insurance coverage. The agreement with Risk Management provides that Risk Management will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of \$100,000 to \$300,000 for each insurance event. The County anticipates no contingent losses.

Texas Association of Counties Risk Management Pool has published its own financial report that can be obtained from the Texas Association of Counties Risk Management Pool.

The County continues to carries commercial fidelity bonds for elected officials and for management.

2. Property and Casualty Insurance

Property, casualty, mobile equipment insurance is provided by Texas Association of Counties Risk Management Pool.

3. Workers' Compensation Insurance

The County insures against workers' compensation claims through Texas Association of Counties Risk Management Pool.

4. Group Health and Life Insurance

The County maintains a group health insurance plan for active employees and their eligible dependents. Costs are recorded in the fund from which the employees' compensation is paid.

5. Unemployment Compensation Insurance

The County insures for unemployment compensation claims through an agreement with the Texas Workforce Commission (TWC).

B. Related Party Transaction

There were no related party transactions requiring disclosure.

C. Subsequent Events

January 22, 2018

- 1. Acknowledged receipt of a grant in the amount of \$100,000 from the Dickson Allen Foundation for the purchase of a new ambulance.
- 2. Accepted the Certificate of Unbudgeted Revenue: Insurance Proceeds for Hurricane Harvey Damage in the amount of \$446,602.

D. Contingent Liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the government expects such amounts, if any, to be immaterial.

The County was not a defendant in any lawsuit at September 30, 2017.

E. Summary of TCDRS Funding Policy

Net Pension Liability / (Asset)

| Net Pension Liability / (Asset) | December 31, 2015 | December 31, 2016 |
|--|-------------------|-------------------|
| Total pension liability | \$37,799,972 | \$39,900,690 |
| Fiduciary net position | 32,126,300 | 34,209,787 |
| Net pension liability/ (asset) | 5,673,672 | 5,690,902 |
| Fiduciary net position as a % of total pension liability | 84.99% | 85.74% |
| Pensionable covered payroll(1) | \$6,657,948 | \$6,654,111 |
| Net pension liability as a % of covered payroll | 85.22% | 85.52% |

The total pension liability was determined by an actuarial valuation as of the valuation date, calculated based on the discount rate and actuarial assumptions below.

Note: Rounding differences may exist above or in other tables in this report.

(1) Payroll is calculated based on contributions as reported to TCDRS.

Discount Rate

| Discount rate (2) | 8.10% | 8.10% |
|---|----------------|----------------|
| Long-term expected rate of return, net of investment expense(2) | 8.10% | 8.10% |
| Municipal bond rate (3) | Does not apply | Does not apply |

- (2) This rate reflects the long-term rate of return funding valuation assumption of 8.00%, plus 0.10% adjustment to be gross of administrative expenses as required by GASB 68.
- (3) The plan's fiduciary net position is projected to be available to make all projected future benefit payments of current active, inactive, and retired members. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return, and the municipal bond rate does not apply. See page 6 of this report for further details.

Other Key Actuarial Assumptions

Updated mortality assumptions were adopted in 2015. All other actuarial assumptions that determined the total pension liability as of December 31, 2016 were based on the results of an actuarial experience study for the period January 1, 2009 - December 31, 2012, except where required to be different by GASB 68.

See Appendix B of this report (Actuarial Methods and Assumptions Used for GASB Calculations) for a listing of key assumptions used in the calculation of the total pension liability and other GASS 68 metrics.

See Appendix C (Actuarial Methods and Assumptions Used for Funding Valuation) of this report for a full description of the actuarial assumptions used in the funding valuation.

| | Beginning Date | Ending Date |
|------------------------|-------------------|--------------------|
| Valuation date | December 31, 2015 | December 31, 2016 |
| Measurement date | December 31, 2015 | December 31, 2016 |
| Employer's fiscal year | October 1, 2016 | September 30, 2017 |

Depletion of Plan Assets / GASB Discount Rate

The discount rate is the single rate of return that, when applied to all projected benefit payments results in an actuarial present value of projected benefit payments equal to the total of the following:

- 1. The actuarial present value of benefit payments projected to be made in future periods in which (a) the amount of the pension plan's fiduciary net position is projected to be greater than the benefit payments that are projected to be made in that period and (b) pension plan assets up to that point are expected to be invested using a strategy to achieve the long-term rate of return, calculated using the long-term expected rate of return on pension plan investments.
- 2. The actuarial present value of projected benefit payments not included in (1), calculated using the municipal bond rate.

Therefore, if plan investments in a given future year are greater than projected benefit payments in that year and are invested such that they are expected to earn the long-term rate of return, the discount rate applied to projected benefit payments in that year should be the long-term expected rate of return on plan investments. If future years exist where this is not the case, then an index rate reflecting the yield on a 20-year, tax-exempt municipal bond should be used to discount the projected benefit payments for those years.

The determination of a future date when plan investments are not sufficient to pay projected benefit payments is often referred to as a depletion date projection. A depletion date projection compares projections of the pension plan's fiduciary net position to projected benefit payments and aims to determine a future date, if one exists, when the fiduciary net position is projected to be less than projected benefit payments. If an evaluation of the sufficiency of the projected fiduciary net position compared to projected benefit payments can be made with sufficient reliability without performing a depletion date projection, alternative methods to determine sufficiency may be applied.

In order to determine the discount rate to be used by the employer we have used an alternative method to determine the sufficiency of the fiduciary net position in all future years. Our alternative method reflects the funding requirements under the employer's funding policy and the legal requirements under the TCDRS Act.

- 1. TCDRS has a funding policy where the Unfunded Actuarial Accrued Liability (UAAL) shall be amortized as a level percent of pay over 20-year closed layered periods.
- 2. Under the TCDRS Act, the employer is legally required to make the contribution specified in the funding policy.
- 3. The employer's assets are projected to exceed its accrued liabilities in 20 years or less. When this point is reached, the employer is still required to contribute at least the normal cost.
- 4. Any increased cost due to the adoption of a COLA is required to be funded over a period of 15 years, if applicable.

Based on the above, the projected fiduciary net position is determined to be sufficient compared to projected benefit payments. Based on the expected level of cash flows and investment returns to the system, the fiduciary net position as a percentage of total pension liability is projected to increase from its current level in future years.

Since the projected fiduciary net position is projected to be sufficient to pay projected benefit payments in all future years, the discount rate for purposes of calculating the total pension liability and net pension liability of the employer is equal to the long-term assumed rate of return on investments. This long-term assumed rate of return should be net of investment expenses, but gross of administrative expenses for GASB 68 purposes. Therefore, we have used a discount rate of 8.10%. This rate reflects the long-term assumed rate of return on assets for funding purposes of 8.00%, net of all expenses, increased by 0.10% to be gross of administrative expenses.

As additional documentation for auditing purposes, we have shown the projection of the Fiduciary Net Position in the following exhibit ("Projection of Fiduciary Net Position").

- (1) Reflects the change in the liability due to the time value of money. TCDRS does not charge fees or interest.
- (2) Relates to allocation of system-wide items.

As of December 31, 2016, the deferred inflows and outflows of resources are as follows:

| Deferred Inflows / Outflows of Resources | Deferred Inflows of Resources | Deferred Outflows of Resources |
|---|-------------------------------|--------------------------------|
| Differences between expected and actual experience | \$267,138 | \$9,756 |
| Changes of assumptions | 0 | 202,493 |
| Net difference between projected and actual earnings | 0 | 1,843,971 |
| Contributions made subsequent to measurement date (3) | N/A | Employer determined |

Amounts currently reported as deferred outflows of resources and deferred inflows of resources related to pensions, excluding contributions made subsequent to the measurement date, will be recognized in pension expense as follows:

| Year | ended | December 31: |
|------|-------|--------------|
| | | |

| 2017 | \$597,971 |
|----------------|-----------|
| 2018 | 597,971 |
| 2019 | 551,505 |
| 2020 | 41,636 |
| 2021 | 0 |
| Thereafter (4) | 0 |

- (3) Any eligible employer contributions made subsequent to the measurement date through the employer's fiscal year end should be reflected as outlined in Appendix D of this report.
- (4) Total remaining balance to be recognized in future years, if any. Note that additional future deferred inflows and outflows of resources may impact these numbers.

Schedule of Deferred Inflows and Outflows of Resources

Employer contributions made subsequent to measurement date (2)

-----Employer Determined-----

⁽¹⁾ Investment (gains)/losses are recognized in pension expense over a period of five years; economic/demographic (gains)/losses and assumption changes or inputs are recognized over the average remaining service life for all active, inactive, and retired members.

⁽²⁾ Any eligible employer contributions made subsequent to the measurement date through the employer's fiscal year end should be reflected as deferred outflows as outlined in Appendix D of this report.

GASB 68 Plan Description for Lavaca County

A description of the pension plan pursuant to Paragraph 40 of GASB Statement No. 68 is as follows:

- a. Lavaca County participates in the Texas County & District Retirement System (TCDRS), which is a statewide, agent multiple-employer, public employee retirement system.
- b. A brief description of benefit terms:
 - 1) All full- and part-time non-temporary employees participate in the plan, regardless of the number of hours they work in a year. Employees in a temporary position are not eligible for membership.
 - 2) The plan provides retirement, disability and survivor benefits.
 - 3) TCDRS is a savings-based plan. For the county's plan, 7% of each employee's pay is deposited into his or her TCDRS account. By law, employee accounts earn 7% interest on beginning of year balances annually. At retirement, the account is matched at an employer set percentage (current match is 200%) and is then converted to an annuity.
 - 4) There are no automatic COLAs. Each year, the county may elect an ad hoc COLA for its retirees (if any). There are two COLA types, each limited by actual inflation.
 - 5) Benefit terms are established under the TCDRS Act. They may be amended as of Jan. 1 each year but must remain in conformity with the Act.
- c. Membership information is shown in the chart below.
- d. The county's contribution rate is calculated annually on an actuarial basis, although the employer may elect to contribute at a higher rate. The Lavaca County contribution rate is based on the TCDRS funding policy adopted by the TCDRS Board of Trustees and must conform with the TCDRS Act. The employee contribution rates are set by the county and are currently 7%. Contributions to the pension plan from the county for 2016 are shown in the Schedule of Employer Contributions.
- e. The most recent comprehensive annual financial report for TCDRS can be found at the following link, www.tcdrs.org.

Membership Information

| Dec.31, 2015 | Dec. 31,2016 |
|--------------|-------------------------------|
| 95 | 93 |
| 182 | 183 |
| \$3,011 | \$3,011 |

| 12.27 | 12.68 |
| | 95 182 \$3,011 49.69 |

^{*}Averages reported for active employees. They differ from the prior year's report, which included all active and inactive members. Average service includes all proportionate service.

Contributions Made Subsequent to Measurement Date

GASB Statement No. 71 ("GASB 71"), Pension Transition for Contributions Made Subsequent to the Measurement Date - an Amendment of GASB Statement No. 68, requires employer contributions made between the measurement date, which is the date used to determine an employer's net pension liability ("NPL"), and the employer's fiscal year end be reported as a deferred outflow of resources ("DOoR"). The statement "requires a beginning deferred outflow of resources for its pension contributions, if any, made subsequent to the measurement date of the beginning net pension liability."

For GASB valuation purposes, TCDRS' consulting actuary will compute each participating employer's NPL as of Dec. 31 of each year. Employers that have a fiscal year end other than Dec. 31 will need to account for pension contributions (employer; not employee contributions or group term life premiums) made between Dec. 31 and the employer's fiscal year end as a DOoR. These contributions will not be reported to you as part of this GASB report; employers can access their monthly employer activity statements, which display employer contributions to the retirement plan via the TCDRS Employer Portal.

Summary of TCDRS Funding Policy

Texas County & District Retirement System Funding Policy

Effective as of the Dec. 31, 2014 valuation

Introduction

The funding policy governs how the Texas County & District Retirement System (TCDRS) determines the employer contributions required to ensure that benefits provided to TCDRS members are funded in a reasonable and equitable manner. The goals of TCDRS' funding policy are to fully fund benefits over the course of employees' careers to ensure intergenerational equity, and to balance rate and benefit stability with the need for the plan funding to be reflective of current plan conditions.

This policy documents the current funding policies in effect for the Dec. 31, 2016 actuarial valuation as established by state law, administrative rule and action by the TCDRS Board of Trustees (the board). The policy serves as a comprehensive funding overview and complies with the GASB reporting requirements for an agent multiple-employer plan.

TCDRS funding overview

TCDRS is a model for responsible, disciplined funding. TCDRS does not receive any state funding. As an agent, multiple-employer plan, each participating employer in the system funds its plan independently. A combination of three elements funds each employer's plan: employee deposits, employer contributions and investment income.

- The deposit rate for employees is 4%, 5%, 6% or 7% of compensation, as adopted by the employer's governing body.
- Participating employers are required to contribute at actuarially determined rates to ensure adequate funding for each employer's plan. Employer contribution rates are determined annually and approved by the TCDRS Board of Trustees.
- Investment income funds a large part of the benefits employees earn.

Pursuant to state law, employers participating in the system must pay 100% of their actuarially determined required contributions on an annual basis.

Each employer has the opportunity to make additional contributions in excess of its annual required contribution rate either by adopting an elected rate that is higher than the required rate or by making additional contributions on an ad hoc basis. Employers may make additional contributions to pay down their liabilities faster, pre-fund benefit enhancements and/or buffer against future adverse experience.

In addition, employers annually review their plans and may adjust benefits and costs based on their local needs and budgets. Although accrued benefits may not be reduced, employers may reduce future benefit accruals and immediately reduce costs.

Methodology for determining employer contribution rates

The board hires independent outside consulting actuaries to conduct an annual valuation to measure the funding status and to determine the required employer contribution rate for each employer plan. In order to calculate the employer contribution rate, the actuary does the following:

- Studies each employer's adopted plan of benefits and the profile of its plan participants, and uses assumptions established by the board to estimate future benefit payments.
- Discounts the estimate of future benefit payments to the present based on the long-term rate of investment return to determine the present value of future benefits.
- Compares the present value of future benefits with the plan's assets to determine the difference that needs to be funded based on the funding policy.

The valuation of each employer plan is based on the system funding policy and the assets, benefits and participant profile of each participating employer plan. The four key components in the determination of employer contribution rates are: the actuarial cost method, amortization policy, the asset valuation method and the actuarial assumptions.

Actuarial cost method

TCDRS has adopted the replacement life entry age cost method, a conservative cost method and an industry standard. The goal of this cost method is to fund benefits in an orderly manner for each participant over his or her career so that sufficient funds are accumulated by the time benefit payments begin. Under this approach, benefits are funded in advance as a level percentage of pay. This portion of the contribution rate is called the normal cost rate and generally remains stable from year to year.

Amortization policy

The portion of the contribution rate that funds any remaining unfunded amounts for benefits that are not covered by the normal cost is called the unfunded actuarial accrued liability (UAAL) rate. UAAL amounts occur when benefit enhancements are adopted that have not been funded in advance, or when actual investment or demographic experience varies from the actuarial assumptions (actuarial gains and losses). UAAL amounts are amortized on a level-percentage-of-covered-payroll basis over a closed period with a layered approach. The closed periods ensure all unfunded liabilities are financed over no more than 20 years from the time they occur. Each year new layers are established to amortize changes in the UAAL due to actuarial gains or losses, as well as any plan benefit changes elected by an employer for that year.

Benefit enhancements are amortized over a 15-year closed period. All other changes in the UAAL are amortized over 20-year closed periods. These amortization periods are generally more conservative than those of most other public retirement plans and are stricter than the minimum amortization period required under state law.

For newly participating districts that have five or fewer employees who are all within five years of retirement eligibility, any initial UAAL and any subsequent adoption of prior service credits are amortized over a five-year closed amortization period. This ensures that benefits are appropriately funded over the current generation of employees.

Notwithstanding the layered approach, the total UML payment may not be less than the required payment obtained by amortizing the entire UAAL over a 20-year period.

If a plan is overfunded, the overfunded actuarial accrued liability (OAAL) is calculated annually using a 30-year open amortization period.

Asset valuation method

When determining the actuarial value of assets used for measuring a plan's funded status, TCDRS smooths each year's actuarial investment gains and losses and recognizes them over a five-year period to better reflect the system's long-term investment horizons and to keep employer contribution rates more stable. As actuarial asset investment gains and losses are recognized, they become part of the actuarial gains and losses for the year and are funded according to the amortization policy. The five-year period helps stabilize employer rates while still ensuring that rates are reflective of current market conditions.

In addition, the board has the ability to set aside reserves from investment earnings that are used to help offset future negative economic cycles. These reserves are held separately and are not counted as part of a participating employer's plan assets until they are passed through to employers when determined necessary by the board. Reserves help maintain rate stability for employers. In addition, reserves ensure that employers do not adopt benefit increases based on a temporarily lower plan cost at a high point in a market cycle and, conversely, are not as pressured to immediately reduce benefit levels during a low point in a market cycle.

Actuarial assumptions

Demographic and economic assumptions are used to estimate employer liabilities and to determine the amount of funding required from employer contributions as opposed to investment earnings. These assumptions reflect a long-term perspective of 30 years or more. Examples of key economic assumptions include long-term investment return, long-term inflation and annual payroll increase.

Demographic assumptions are the actuary's best estimate of what will happen to TCDRS members and retirees. Examples of demographic assumptions are employment termination rates, retirement rates and retiree mortality rates. A complete listing of all actuarial assumptions can be found in the annual system-wide valuation report.

Oversight

The board has established review policies to ensure that actuarial assumptions are appropriate and that the methodology for determining employer contribution rates is being correctly applied.

Review of actuarial assumptions

TCDRS' actuarial assumptions are periodically reviewed and revised as deemed necessary to reflect best estimates of future experience. Every four years, the TCDRS consulting actuary conducts an investigation of experience. TCDRS assumptions are compared to plan experience and future expectations, and changes to the assumptions are recommended as needed. The board adopts actuarial assumptions to be used in the valuation based on the results of this study.

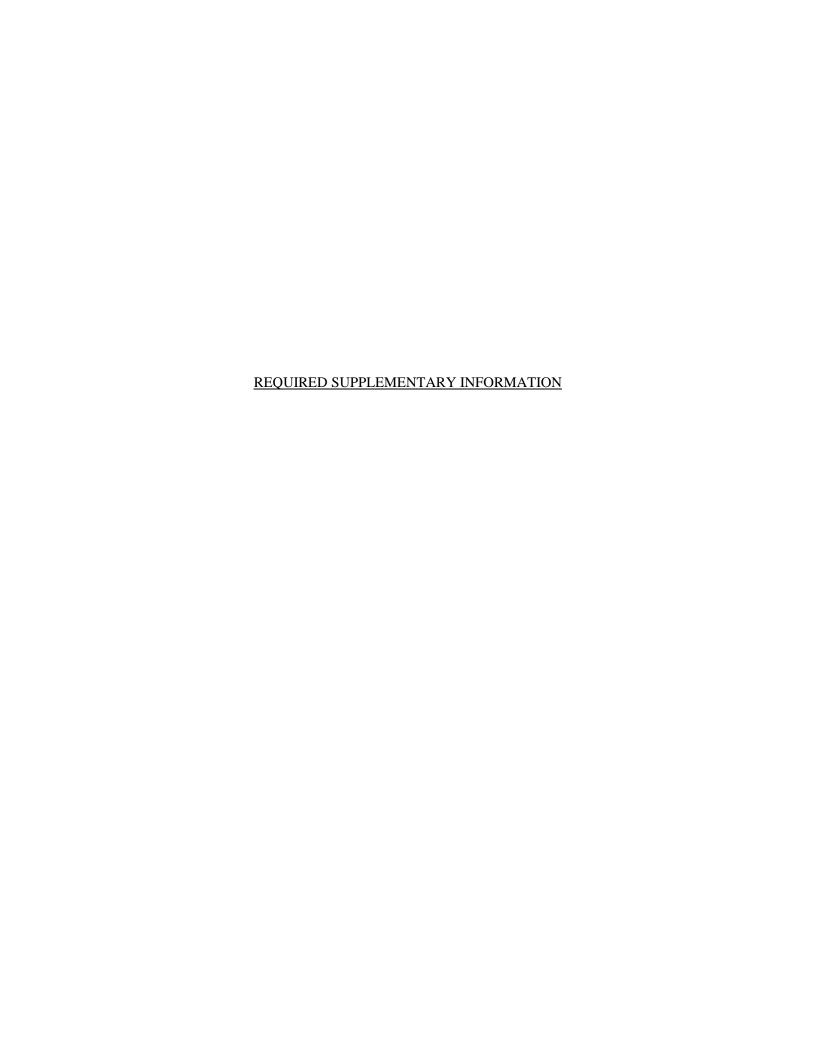

An actuarial audit of every investigation of experience is required and must be performed by an independent auditing actuary to review the consulting actuary's analysis, conclusions and recommendations for accuracy, appropriateness and reasonableness. These audits alternate between a peer review and a full replication audit of the investigation of experience. In a peer review audit of the investigation, the reviewing actuary uses the raw results of the investigation for demographic assumptions as calculated by the consulting actuary to test the conclusions and recommendations. In addition, the reviewing actuary independently analyzes economic assumptions to test the results and recommendations of the consulting actuary. The reviewing actuary also examines the consulting actuary's methods and assumptions for reasonableness and internal consistency. In a full replication audit of the investigation, in addition to performing all of the steps of a peer review, the auditing actuary fully replicates the calculation of the investigation's raw results.

Review of employer contribution rates

In order to test accuracy and ensure that the actuarial methods and assumptions are being correctly applied, an audit of the valuation is required every four years. These audits are conducted by an independent reviewing actuary and alternate between a peer review and a full replication audit of the valuation. In the peer review audit of the valuation, the actuary uses a sample of participant data and TCDRS plans to test the results of the valuation. The reviewing actuary also examines the consulting actuary's methods and assumptions for reasonableness and internal consistency. In a full replication audit of the valuation, the auditing actuary performs all the steps of a peer review audit but instead of analyzing sample data and plans, the auditing actuary fully replicates the original actuarial valuation.

Review and modification of funding policy

The board will review this policy on a regular basis and may modify this policy at its discretion. Modifications to the policy may be submitted for consideration to the board by staff and/or outside consulting actuaries as circumstances warrant.

Schedule of Changes in Net Pension Liability and Related Ratios

| | Year Ended December 31 | | | | | | | | | |

This schedule is presented to illustrate the requirement to show information for 10 years. However, recalculations of prior years are not required, and if prior years are not reported in accordance with the standards of GASB 67/68, they should not be shown here. Therefore, we have shown only years for which the new GASB statements have been implemented.

Schedule of Employer Contributions

| Year Ending December 31 | Actuarially Determined Contribution (1) | Actual Employer Contribution (¹) | Contribution Deficiency (Excess) | Pensionable Covered Payroll (²) | Actual Contribution as a % of Covered Payroll |
|-------------------------------|---|--|--|---------------------------------------|---|
| 2007 | \$410,864 | \$410,864 | \$0 | \$4,956,135 | 8.3% |
| 2008 | 770,991 | 770,991 | 0 | 5,280,759 | 14.6% |
| 2009 | 808,292 | 835,588 | (27,296) | 5,570,586 | 15.0% |
| 2010 | 780,971 | 836,755 | (55,784) | 5,578,367 | 15.0% |
| 2011 | 795,123 | 854,968 | (59,845) | 5,699,807 | 15.0% |
| 2012 | 850,274 | 874,765 | (24,492) | 5,831,783 | 15.0% |
| 2013 | 905,468 | 931,304 | (25,835) | 6,008,416 | 15.5% |
| 2014 | 1,000,610 | 1,000,610 | 0 | 6,207,264 | 16.1% |
| 2015 | 1,059,945 | 1,073,260 | (13,315) | 6,657,948 | 16.1% |
| 2016 | 1,045,361 | 1,072,639 | (27,279) | 6,654,111 | 16.1% |

⁽¹⁾ TCDRS calculates actuarially determined contributions on a calendar year basis. GASB Statement No. 68 indicates the employer should report employer contribution amounts on a fiscal yearbasis.

⁽²⁾ Payroll is calculated based on contributions as reported to TCDRS.

Notes to Schedule

Valuation Date: Actuarially determined contribution rates are calculated each December 31, two

years prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial Cost Method Entry Age

Amortization Method Level percentage of payroll, closed

Remaining Amortization Period 12.4 years (based on contribution rate calculated in 12/31/2016 valuation)

Asset Valuation Method 5-year smoothed market

Inflation 3.0%

Salary Increases Varies by age and service. 4.9% average over career including inflation.

Investment rate of Return 8.00%, net of investment expenses, including inflation

Retirement Age Members who are eligible for service retirement are assumed to

commence receiving benefit payments based on age. The average age at

service retirement for recent retirees is 61.

Mortality In the 2015 actuarial valuation, assumed life expectancies were adjusted

as a result of adopting a new projection scale (110% of the MP-2014 Ultimate Scale) for 2014 and later. Previously Scale AA had been used. The base table is the RP-2000 table projected with Scale AA to 2014.

Changes in Plan Provisions Reflected in the Schedule of

2015: No changes in plan provisions.

Employer Contributions* 2016: No changes in plan provisions.

^{*}Only changes effective 2015 and later are shown in the Notes to Schedule.

Actuarial Methods and Assumptions Used for GASB Calculations

All actuarial methods and assumptions used for this GASB analysis were the same as those used in the December 31, 2016 funding valuation (see Appendix C, following, for details), except as noted below and throughout this report. Please see the Lavaca County December 31, 2016 Summary Valuation Report for further details.

Following are the key assumptions and methods used in this GASB analysis.

Valuation TimingActuarially determined contribution rates are calculated on a

calendar year basis as of December 31, two years prior to the end of the fiscal year in which the contributions are reported.

Actuarial Cost Method Entry Age Normal (1)

Amortization Method

Recognition of economic/demographic

gains or losses Straight-Line amortization over Expected Working Life

Recognition of assumptions changes

or inputs Straight-Line amortization over Expected Working Life

Asset Valuation Method

Smoothing period 5 years

Recognition method Non-asymptotic

Corridor None

Inflation Same as funding valuation: See Appendix C

Salary Increases Same as funding valuation: See Appendix C

Investment Rate of Return 8.10%

Cost-of-Living Adjustments Cost-of-Living Adjustments for Lavaca County are not

considered to be substantively automatic under GASB 68. Therefore, no assumption for future cost-of-living adjustments is included in the GASB calculations. No assumption for future cost-of-living adjustments is included in the funding valuation.

Retirement Age Same as funding valuation: See Appendix C

Turnover Same as funding valuation: See Appendix C

Mortality Same as funding valuation: See Appendix C

⁽¹⁾ Individual entry age normal cost method, as required by GASB 68, used for GASB calculations. Note that a slightly different version of the entry age normal cost method is used for the funding actuarial valuation.

Actuarial Methods and Assumptions Used for Funding Valuation

Except where indicated in the section of this GASB 68 report entitled "Actuarial Methods and Assumptions Used for GASB Calculations", the assumptions used in this analysis for the December 31, 2016 financial reporting metrics are the same as those used in the December 31, 2016 actuarial valuation analysis for Lavaca County.

Following is a description of the assumptions used in the December 31, 2016 actuarial valuation analysis for Lavaca County. This information may also be found in the Lavaca County December 31, 2016 Summary Valuation Report.

Economic Assumptions

TCDRS system-wide economic assumptions:

| Real rate of return | 5.0% |
|-----------------------------|------|
| Inflation | 3.0% |
| Long-term investment return | 8.0% |

The assumed long-term investment return of 8% is net after investment and administrative expenses. It is assumed returns will equal the nominal annual rate of 8% for calculating the actuarial accrued liability and the normal cost contribution rate for the retirement plan of each participating employer.

The annual salary increase rates assumed for individual members vary by length of service and by entry-age group. The annual rates consist of a general wage inflation component of 3.5% (made up of 3.0% inflation and 0.5% productivity increase assumptions) and a merit, promotion and longevity component that on average approximates 1.4% per year for a career employee. (See Table 1 for Merit Salary Increases.)

Employer-specific economic assumptions:

| Growth in membership | 0.0% |
|---|------|
| Payroll growth for funding calculations | 3.5% |

The payroll growth assumption is for the aggregate covered payroll of an employer.
