

May 2, 2026 City of Shiner and Shiner ISD Elections

Explanation for discrepancy:

Lavaca County Elections Office ordered ballots and programing for the City of Shiner and Shiner ISD Election to be held on May 2, 2026. Once received, the ballots and programing were verified through our internal testing process. A programing mistake was found which led to our vendor (ES&S) providing a new set of ballots and programing. In this waiting period the set of ballots that correctly reflected the choices provided to voters were mailed out to voters who requested a ballot by mail. On election day, through Central Counting Station processes, some of the ballots that were mailed before the new programing were being rejected and some were not. This created inconsistencies with the votes per candidate. Through the post-election hand count audit conducted by the Early Voting Ballot Board your results have been verified and hand tallied for assurance.
